Context

What do we want from Context?

Assembly
Proper translations
Proper transitions
Evaluation/Execution (Runtime)
Identification

Context as Record

Recording Context
Context at transition
      Create
      Translate
      Deploy/Ingest

Applying Context

When managing Artifacts
When selecting Artifacts
When understanding Artifacts
When testing artifacts
When deploying Artifacts
During artifact use

Dynamics:
      Inheritance of context
      Constraint of context
      Compositional context
